

# Ravi Shankar M

BI DEVELOPER

Chennai | +91-9884567448 | ravishankar2697@gmail.com

## Objective

---

Dedicated and skilled BI Developer with 3+ years of industry experience, specializing in SQL scripting, Pentaho data integration, and Qlik Sense reporting. To leverage my technical expertise, strong analytical abilities, and collaborative nature to contribute effectively as part of a dynamic team. To seek an apt environment that encourages continuous learning and creativity, providing exposure to new ideas that stimulate professional and personal growth.

## Experience

---

### Tata Consultancy Services

**Client:** Vistara Airlines

**NOV 2021 - Present**

- Collaborated with cross-functional teams to gather and analyze business requirements, translating them into effective data solutions.
- Migrated existing data flows for all user accounts, moving away from an obsolete system and decreasing end-user waiting times by up to 40%.
- Proficient in data analysis, data cleansing, and data visualization techniques.
- Strong SQL scripting skills to Extract, Transform, and Load data from various sources, ensuring data accuracy and integrity.
- Designed and implemented ETL workflows using Pentaho data integration, optimizing data processing and improving efficiency.
- Presented findings and insights to both technical and non-technical audiences, showcasing effective communication skills.

### Wipro Ltd.

**Clients:** Atlassian Corporation & United Healthcare

**AUG 2019 – NOV 2021**

- Run calls with clients and vendors for the requirement collection and layout discussion.
- Experience in designing and managing Alteryx workflows for data preparation and automation.
- Conducted manual testing of Data Mapping, identifying and documenting defects.
- Experience in Microsoft SQL Server stored procedures, functions, queries, tables, views, triggers, indexes, constraints, Query optimization etc.
- Perform files configuration and perform Metadata testing, Data Completeness Testing, Data Quality Testing.
- Developed comprehensive test cases and test plans, ensuring thorough coverage of functionality.
